

Guidance for Completing the Title I.A LEA Compliance Plan Compliance Plans (Federal and State)

Federal Instructional Improvement, Office of Quality Schools

This new plan will not be created until you click the "Save and Create New Plan" button below.

First Implementation Year:

Address the following:

1. Describe how the district will coordinate and integrate Title I services with other educational services at the LEA or school level -- such as Even Start, Head Start, and other preschool programs, including transition plans to elementary schools; services for LEP children, children with disabilities, migrant children, neglected or delinquent youth, Native American children served under Title VII.A, homeless children, and immigrant children. Specify how these services will increase program effectiveness, eliminate duplication, and reduce fragmentation of the instructional program.

Along with Title I funds, please indicate what other funds, especially other Title funds such as II.A, I.C, I.D, VI.B, and VII, a district is using to provide services in ways that will increase the effectiveness of student services.

Additional coordination could include programs under Title II to provide professional development for teachers and principals, and, if appropriate, pupil services personnel, administrators, parents and other staff, including local educational agency level staff.

A district may also be using local funds to support or supplement services because of decreases in Title I funding.

EXAMPLE

The XYZ school district will coordinate and integrate Title I targeted supplemental communication arts for K-6 students with other supplemental services including: (list other funding sources to be used such as -- LEP, children with disabilities, neglected or delinquent youth, Native American students served under Title VII.A, homeless and immigrant students).

The district has reviewed available funding for existing services and resources to find ways to increase efficiency and effectiveness of all programs. Documentation of student eligibility for each funded program will be maintained and continuously monitored for redundancy of instructional services. The district will ensure that documented meetings and collaboration time will be provided for teachers and staff involved with supplemental services to identify overlapping services, to monitor each program's effectiveness, and to provide comprehensive instructional programs.

2. Describe how migratory and former migratory children, who are eligible to receive services under Title I.A., are selected to receive such services on the same basis as other children receiving Title I.A services.

A district should have identification criteria for enrolling and providing needed services to migrant students in a timely manner. Services should be provided on the same basis as for other students selected to receive services.

EXAMPLE: The XYZ school district has established procedures to identify migrant students upon enrollment, and has developed clear processes for providing Title I.A services in a timely manner to migratory and former migratory students who meet the same eligibility criteria as any other student at the same grade-levels served by supplemental Title I.A programs.

3. How will Title I services be delivered? Check all that apply.

a)

- ☐ Targeted Assistance
- ☐ Schoolwide Program

- b) Briefly describe how the district will use Title I.A. funds to support student success. Include expected interventions, instructional programs/practices and professional development.
The plan shall be developed in consultation with teachers, principals, and other appropriate school personnel, and with parents of children in schools served. Identify your planning process and briefly describe the main services to be provided, including any professional development for teachers who will be working with the students, and list programs that are to be used for interventions, materials that are to be purchased, etc.

EXAMPLE

The XYZ school district has met with teachers, administrators and parents to discuss needed services to be funded by Title I.A. The district has chosen DEFG assessment program to progress monitor and benchmark achievement of identified students to better target needed skills and group students for interventions. Supplemental programs will be provided by highly qualified teachers working with eligible students using differentiated instructional practices. Based on student needs and feedback received through consultation and parent surveys, the district will provide supplemental support for all students meeting the eligibility criteria for targeted services or for services within buildings with Schoolwide Program Plans.

Communication Arts support will be provide for all eligible K-6 students, including small group lessons from ABC company's intervention materials for struggling readers. Professional development for using this intervention is scheduled in the Fall for all supplemental Communication Arts teachers and paraprofessionals. Title I funds will also be used to provide professional development to support teacher knowledge of reading intervention strategies as they work with struggling readers. This professional development will be available for all K-6 staff working with identified students.

The district will also provide supplemental Mathematics support for all K-3 students. The supplemental mathematics program will include providing eligible students small group lessons from HIJ company's intervention materials to increase math facts and numeracy skills. The RPDC will provide on-site support for teaching problem solving and fractions/decimals.
